The 100+ AI Writing Prompt Pack

Copy-paste prompts for ChatGPT, Claude, Gemini, Jasper & Writesonic — tested, categorized, ready to use.

⚡ The Golden Rule of Prompting

Every prompt needs 4 elements: **Role** (who the AI acts as) + **Context** (background info) + **Task** (what to write) + **Constraints** (length, tone, structure). Replace the [bracketed] variables before hitting send. Missing any one element = generic output.

01 Blog Outline Generator

Act as an SEO content strategist. Create a detailed outline for a blog post targeting the keyword '[primary keyword]'. The audience is [audience]. Include: H2 and H3 headings, key points per section, suggested internal links, 3-5 FAQ ideas, and a meta description under 160 characters. Be comprehensive but leave room for my unique perspective.

02 Full Blog Post Draft

Write a [word count]-word blog post about [topic]. Primary keyword: '[keyword]' — use it in the first 100 words and in one H2. Secondary keywords: [list]. Tone: [tone]. Audience: [audience]. Structure: hook → problem → solution → evidence → conclusion. Use short

paragraphs (2-3 sentences max), transition sentences between sections, active voice. Avoid clichés and 'in today's digital landscape.'

03 Blog Intro Generator

Write 3 different opening paragraphs for a blog post about [topic]. Option 1: surprising statistic. Option 2: relatable problem. Option 3: bold statement. Each intro: 60-100 words, include '[keyword]' naturally, and end with a sentence that leads into the next section.

04 Blog Conclusion Generator

Write a conclusion for a blog post about [topic]. Summarize the 3 key takeaways in one sentence each. End with a question to encourage comments. Add one sentence on why this topic matters now. Max 100 words. No 'in conclusion' or 'to wrap up.'

05 Headline & Title Generator

Generate 10 blog post titles for an article about [topic] targeting the keyword '[keyword]'. Mix formats: how-to, listicle, question, contrarian, and benefit-led. Each under 65 characters. Mark your top 3 and explain why each works.

06 H2/H3 Section Writer

Write the section content for the heading '[heading]' of a blog post about [topic]. Requirements: 200-300 words, include one supporting statistic or example, one transition into the next section, and keep the tone [tone]. Do not repeat points already covered in: [previous points].

07 Listicle Generator

Write a listicle titled '[title]'. Structure: intro paragraph (2-3 sentences), then [number] items. For each item: a bold heading, a 50-70 word explanation, and one practical takeaway. Order from most to least important. End with a brief summary paragraph.

08 Blog Post Rewriter for SEO

Rewrite the following text to improve its SEO potential: '[paste text]'. Add: a stronger keyword placement for '[keyword]', more specific claims, internal-link opportunities, and

one statistic. Keep the original meaning and tone. Output the improved version with a 2-3 sentence explanation of what you changed.

09 Reader Persona Brief

Create a detailed reader persona for a blog about [niche]. Include: demographics, goals, pain points, content format preferences, objections to buying, and 3 example search queries they'd type into Google. Use it to guide all future content decisions.

10 Interview-Style Article

Transform these interview answers into an engaging article: [paste Q&A]. Keep the expert's voice authentic, add contextual narration between quotes, write an intro and conclusion, and title it compellingly. Target length: [word count].

11 Evergreen vs Trendy Topic Checker

For each topic in [list], classify it as 'evergreen' (searchable for 2+ years) or 'trending' (short-lived), and suggest a content format for each. Also recommend 2 topic clusters I could build around them.

12 Table of Contents & Skimmability Audit

Act as a content editor. Review this draft: [paste]. Identify: (1) whether H2/H3 hierarchy is logical, (2) places where a table, list, or example would improve scannability, (3) any paragraphs over 5 lines that need splitting. Return a bullet-point revision plan.

13 Competitor Content Gap Analysis

Compare my article [URL] with these competitors [URLs]. Identify: topics I cover that they don't, topics they cover that I'm missing, and questions the top-ranking content raises but doesn't answer. Suggest 3 specific additions that would make my article more comprehensive.

14 Blog Post Fact-Check Pass

"Fact-check this draft for accuracy: [paste]. Flag any: unverifiable claims, outdated statistics, vague attributions ('studies show'), and recommend a replacement statistic or

source for each. Keep the original structure."

01 SEO Meta Description

Generate 5 meta descriptions for '[title]'. Primary keyword: '[keyword]'. Each must: be under 160 characters, include the keyword naturally, include a benefit or promise, and end without a period. Make them compelling enough to improve click-through rate.

02 Title Tag Optimizer

Generate 8 title tag options for a page targeting '[keyword]'. Each under 60 characters, keyword as early as possible, and matching [search intent: informational/commercial/transactional]. Rank them best to worst with a one-sentence rationale for the top pick.

03 Keyword Clustering Tool

Group these keywords into search-intent clusters: [list]. For each cluster, name the cluster, assign a search intent (informational/commercial/transactional/navigational), and suggest one target page. Flag any keyword with ambiguous intent.

04 GEO Answer Generator (for AI Search)

Generate 10 natural-language questions and answers about [topic] that would help this content appear in AI search results (ChatGPT, Gemini, Perplexity). Each question should be something a real person types conversationally. Each answer: 2-3 sentences, factual, and include the primary keyword where natural.

05 AEO Snippet Optimizer

Rewrite this paragraph to maximize the chance it appears as a featured snippet or AI-cited answer: '[paste]'. Target: 40-55 words, direct answer first, then brief context. Include the query 'keyword' naturally in the first sentence.

06 Internal Link Suggestions

Based on this article about [topic], suggest 5 internal links to other pages on my site [list pages]. For each: the anchor text to use, the target page, and a one-sentence explanation of why the link adds value for the reader.

07 Schema FAQ Builder

Create a FAQPage JSON-LD schema for this page: [topic]. Write 5-7 questions a reader would actually ask, each with a 2-3 sentence answer that includes the primary keyword where natural. Output as valid JSON-LD.

08 Content Refresh Plan

I have a [word count]-word article at [URL] published on [date]. Compare it against current top-ranking content for '[keyword]'. Produce a refresh plan: which sections to expand, which to cut, what new data to add, and which keywords are missing. Prioritize by likely ranking impact.

09 Search Intent Decoder

For the query '[keyword]', analyze the top 5 Google results and classify the dominant search intent. Based on that, recommend: the ideal content format (guide/listicle/comparison/video), target word count, and 3 related long-tail keywords to include.

10 Hreflang & Localization Notes

I'm localizing this English article to [language]. List the elements that must NOT be machine-translated as-is: idioms, humor, statistics/citations, examples, and CTA phrasing. For each, note what a good localizer should adjust.

11 Linkable Asset Idea Generator

Propose 5 'linkable assets' for my website in [niche] — pieces of content so useful others will naturally link to them (original data studies, tools, calculators, templates, ultimate guides). For each: concept, format, effort level, and why sites in this niche would link to it.

12 Pillar Page & Topic Cluster Planner

"Design a topic cluster for the seed topic '[seed]'. Identify: 1 pillar page that broadly covers it, and 8-12 cluster pages targeting long-tail keywords. For each cluster piece: the keyword, search intent, and how it links back to the pillar page."

01 Welcome Sequence (3-Email)

Write a 3-email welcome sequence for new subscribers to [business type]. Email 1: welcome + what to expect + free resource link. Email 2: value/educational content tied to why they subscribed. Email 3: first offer with social proof. Tone: [tone]. Each email: 80-120 words, one CTA, subject lines included.

02 Promotional Email

Write a promotional email for [product/service]. Offer: [details]. Deadline: [date]. Audience: [segment]. Tone: [tone]. Structure: problem → solution → offer → urgency → CTA. Include subject line, preview text, body (80-100 words), and CTA button text. No false urgency.

03 Newsletter Content

Write a newsletter for [topic/industry]. Include: (1) one insightful observation (2-3 sentences), (2) one useful tip (~50 words), (3) one recommended resource. Make the opening feel like insider perspective. Conversational tone. Max 200 words.

04 Abandoned Cart Recovery

Write a 2-email abandoned-cart recovery sequence for [product]. Email 1 (2 hours): remind + restate value + address top objection. Email 2 (24 hours): add social proof + small incentive or deadline. Each: subject line, 60-90 words, one CTA, genuine tone.

05 Win-Back / Re-Engagement Email

Write a win-back email for subscribers who haven't opened in 60+ days. Options to include: a 'what you've missed' recap, a refreshed offer, or a 'have our emails gone stale?'

re-permission check. Tone: [tone]. Keep it under 120 words with one clear choice for the reader.

06 Cold Outreach Email

Write a cold email to [recipient type] about [offer]. Goal: get a reply, not a sale. Include: a personalized first line referencing [specific detail], a one-sentence value hook, and a low-friction ask (quick question / short call). Under 90 words. No hype.

07 Email Subject Line A/B Set

Generate 8 subject lines for an email about [topic]. Provide 4 pairs, each pair testing one variable: curiosity vs clarity, benefit vs fear, short vs long, personal vs brand. Explain which you'd bet on and why.

08 Product Announcement Email

Write a launch email for [new product/feature]. Audience: [segment]. Structure: what's new (1 sentence) → why it matters to them → how to try it → CTA. Include subject line, 70-100 words, and 3 potential CTA button texts to A/B test.

09 Customer Re-Engagement After Purchase

Write a post-purchase sequence for [product] that turns a one-time buyer into a repeat customer. Email 1: onboarding + quick win. Email 2 (day 3): related product or add-on. Email 3 (day 7): ask for review + invite to community. Each: subject line + 60-90 words.

10 Plain-Text Personal Email

Rewrite this promotional email as a short, personal, plain-text email from [name] to [audience]: '[paste]'. No HTML formatting, no stock phrases, one casual CTA. Under 100 words. Make it sound like a real human typed it.

11 Email Accessibility & Tone Audit

Review this email for accessibility and modern best practices: '[paste]'. Check: subject line length, preview text, single clear CTA, mobile-friendliness, avoiding all-caps and emoji overuse, and inclusive language. Return a revised version + list of changes.

12 Automation Flow Map

"Design an email automation flow for a subscriber who [trigger action]. Map the full journey: trigger, 5-7 emails with timing, conditions/branches, and final goal. For [business type]. Keep it simple enough to build in MailerLite or similar tools."

01 X/Twitter Thread

Write an X thread about [topic]. 5-7 tweets. Tweet 1: hook that stops the scroll. Middle: key insights with line breaks. Last: CTA + link to [URL]. Each tweet under 280 characters, plain language, no jargon.

02 LinkedIn Post

Write a LinkedIn post about [topic]. Opening: a personal observation or lesson (2 sentences). Body: key insight with a specific example (3-4 sentences). Closing: a question to drive comments. Max 200 words. 3-5 hashtags at the end.

03 Instagram Caption

Write 3 Instagram caption options for a post about [topic]. Each: 80-120 words, conversational, one CTA (link in bio/comment/save), 5-8 relevant hashtags. The first line should stop the scroll.

04 TikTok Script

Write a 30-45 second TikTok script about [topic]. Format: hook (first 2 seconds), 3 rapid-fire points, payoff/CTA. Mark on-screen text cues. Use a conversational, slightly punchy tone suitable for TikTok.

05 Social Media Content Calendar

Create a 30-day social media content calendar for [business/niche] covering [platforms]. Include content type, topic, caption hook, and platform. Balance: value posts, engagement posts, and promotion (roughly 70/20/10). Format as a table.

06 Engagement Question Bank

Generate 20 engagement questions for [platform] in [niche] that invite comments, saves, and shares. Mix: opinion questions, fill-in-the-blank, polls, 'agree or disagree,' and 'help me decide.' Avoid generic 'how's your week?' questions.

07 Comment Reply Set

Write reply templates for common comments on my post about [topic]. Cover: praise, criticism, questions, 'this is wrong,' and off-topic remarks. Each reply: 1-2 sentences, on-brand tone [tone], and de-escalating where needed.

08 Platform Repurposing Plan

I have this long-form content: [paste/describe]. Create a repurposing plan across platforms: 3 X tweets, 1 LinkedIn post, 1 Instagram carousel outline, 1 TikTok hook, and 1 email teaser. Keep each format native to its platform.

09 Hashtag Strategy

Recommend a hashtag strategy for a post about [topic] on Instagram. Provide: 5 broad tags, 5 niche tags, and 5 long-tail tags. Explain how to blend them and which accounts commonly follow each cluster.

10 Social Proof / Testimonial Post

Turn this customer quote into a social post: '[paste quote]'. Format: a bold hook line, the quote, and a closing lesson or CTA. 100-150 words. Write 2 versions — one for LinkedIn, one for Instagram.

11 Video Hook Generator

Write 10 video hooks (first 3 seconds) for a video about [topic] on [platform]. Mix: contrarian statements, surprising facts, direct questions, and bold claims. Each under 15 words. The goal is to stop the scroll.

12 Community Poll Series

"Design a 7-day poll series for [platform] on [topic] that ends with a lead magnet or CTA. For each day: the poll question, 2-4 options, and what insight I'll share when it closes. Keep it fun and low-effort for followers."

01 Standard Product Description

Write a [word count]-word product description for [product]. Target customer: [who + pain point]. Lead with: [main benefit]. Include specs: [list]. Tone: [tone]. Avoid: 'premium,' 'high-quality,' 'amazing.' End with one sentence about how this solves their specific problem.

02 Feature → Benefit Converter

Convert these product features into benefit-driven copy: [list features]. For each: feature → benefit → why-it-matters for [customer type]. Keep each benefit under 25 words, focused on the outcome the customer gets.

03 E-Commerce Bulk Descriptions

Using the same structure and tone, write short descriptions for these product variants: [list with specs]. Only vary the variant-specific detail (color, size, material). Keep each under 50 words.

04 Etsy/Amazon Listing Optimizer

Optimize this product listing for [marketplace]: '[paste]'. Suggest: a title under [char limit] with the top keywords, 5 bullet points emphasizing benefits, and backend keywords. Explain keyword choices briefly.

05 Buyer Objection Handler

List the top 5 objections a buyer might have about [product] at [price]. For each: write a one-sentence objection-busting line to include in the description or FAQ. Use specifics

(numbers, guarantees, comparisons) instead of empty claims.

06 Comparison Chart Copy

Write copy for a comparison table between [product A] and [product B/C]. Include: a short intro sentence, a 'why X wins' takeaway for each row, and one paragraph under the table making the recommendation explicit.

07 Landing Page Value Proposition

Write the value proposition section for a landing page for [product]. Include: headline (max 10 words), subheadline, 3 benefit bullets with specifics, and a one-line CTA. Target audience: [audience]. No hype words.

08 Gift / Use-Case Angle

Write a product description for [product] from the angle of [use case, e.g., 'as a gift for a new small-business owner']. Highlight how it serves that specific situation. Keep it [word count] words with a warm, specific tone.

09 Post-Purchase Upsell Copy

Write a short upsell offer for customers who just bought [product]: a complementary [related product]. Frame it as a natural next step, not a hard sell. Include a 40-word pitch + CTA button text. One or two sentences of social proof.

10 Return/Guarantee-Focused Description

"Rewrite this product description to emphasize [guarantee/return policy]: '[paste]'. Weave the guarantee in as a risk-reducer in the intro, middle, and near the CTA — without repeating it verbatim three times."

01 Clarity Editor

Rewrite the following text for maximum clarity: '[paste]'. Shorten long sentences, replace jargon with plain language, remove filler words ('very,' 'really,' 'actually'). Keep the original tone and key information.

02 Tone Shifter

Rewrite this text to be more [tone: professional/casual/persuasive/empathetic]: '[paste]'. Keep all key information. Change only tone and word choice. Show both the original and revised version.

03 Active Voice Converter

Rewrite this text to use active voice wherever possible: '[paste]'. Identify passive constructions, suggest active alternatives, and explain why each change improves readability.

04 AI-Filler Finder

Scan this text for common AI writing patterns: unnecessary em dashes, 'not only... but also,' 'in today's digital landscape,' 'it's important to note that,' redundant contrasting pairs, and 'delve.' Flag each, explain why it's a tell, and suggest a simpler alternative: '[paste]'.

05 Readability Improver

Edit this text for a general audience: '[paste]'. Target reading level: 8th grade. Shorten sentences over 25 words, replace complex words, break long paragraphs into 2-3 sentence chunks. Keep meaning and tone.

06 Concision Pass

Cut this text by 40% without losing key information: '[paste]'. Remove redundancy, merge sentences, delete weak qualifiers. Show the original word count vs new.

07 Emotional Punch-Up

Make this text more emotionally engaging without becoming salesy: '[paste]'. Add one concrete sensory detail, one relatable moment, and strengthen the verbs. Keep it honest — no fabricated claims.

08 Consistency Checker

Check this text for consistency: '[paste]'. Flag: terminology that varies, inconsistent capitalization of [terms], mixed UK/US spelling, pronoun shifts, and tense changes. Return a corrected version.

09 SEO-Human Balance Rewrite

Rewrite this text so it ranks for '[keyword]' but reads naturally for humans: '[paste]'. Keep keyword density around 1%, include one H2 with the keyword, and eliminate anything that sounds like a template.

10 Summary / TL;DR Generator

"Write a TL;DR for this article: [paste]. Requirements: 3 bullet points (max 15 words each), then one sentence capturing the overall takeaway. Use plain language a busy reader can scan in 10 seconds."

01 Content Calendar Generator

Create a 30-day content calendar for [business/niche]. Include content type (blog/email/social), topic, target keyword, and rationale. Prioritize topics serving both SEO and customer education. Format as a table.

02 90-Day Content Plan

Build a 90-day content plan for [business] in [niche]. Goals: [goals]. Structure it as 3 phases (awareness, engagement, conversion), with 2-3 content pieces per week, target keywords, and a distribution plan.

03 Competitor Content Audit

Analyze the content strategy of [competitor URL]. Identify: top-performing content types, content gaps, posting frequency, tone/style patterns, and 3 opportunities my brand could exploit that they're missing.

04 Content Repurposing Plan

I have [type of content] about [topic]. Suggest 5 ways to repurpose it (social posts, email, video script, infographic outline, podcast outline). For each: a 2-3 sentence adaptation of the core message.

05 Editorial Guideline Builder

Write editorial guidelines for a [niche] blog. Cover: tone and voice (with do/don't examples), structure rules (paragraph length, headings), SEO rules (keyword usage, internal linking), and quality checklist before publishing.

06 Content Idea Bank (30 Ideas)

Generate 30 content ideas for [business] in [niche]. Cover all 4 stages of the funnel: awareness, consideration, decision, retention. For each: title, format, primary keyword, and search intent.

07 Underserved Question Finder

For the topic [topic], list 10 questions people ask that current top-ranking content answers poorly or not at all. For each: the question, the gap in existing answers, and a content angle that fills it.

08 Content Performance Retro

"Act as a content analyst. Given these metrics for my last 10 posts [list URL + metric], identify: the top 3 patterns in what performed well, the 2 biggest weaknesses, and 3 concrete changes to the next content batch. Be specific."

01 Story Premise Generator

Generate 10 story premises in [genre] around the theme '[theme]'. Each premise: a protagonist, a desire, an obstacle, and a twist. One line each. Mark the 3 with the most dramatic potential.

02 Character Profile Builder

Build a character profile for a [role] in a [genre] story. Include: core desire, fatal flaw, backstory trigger, a 'tell' (habit/tic), how they change by the end, and one line of dialogue that reveals their voice.

03 Scene Structure Builder

Plan a scene with this goal: [character] must [achieve X] while facing [obstacle]. Provide: entering emotion, inciting moment, rising action beats (3-4), turning point, exit emotion, and a last-line hook.

04 Dialogue Writer

Write a dialogue scene between [character A] and [character B] where they argue about [topic] but the real conflict is [underlying issue]. Keep each line under 25 words, show subtext, and end on a beat that changes their relationship.

05 Chapter Outline Planner

Outline a [genre] novel of [chapter count] chapters. For each chapter: POV, setting, key events, reveal/plot point, and chapter-ending hook. Weave in the central theme '[theme]' across the arc.

06 Sensory Description Pass

Rewrite this descriptive passage using all 5 senses: '[paste]'. Ground it in specific, concrete details from this world: [world/setting details]. Avoid clichéd descriptions (rolling hills, beating hearts).

07 Voice Consistency Check

Compare these two character voice samples and adjust them to be distinctly different: '[sample A]' and '[sample B]'. Consider word choice, sentence rhythm, and emotional register. Output revised versions with notes.

08 Ending & Twist Generator

"Given this setup: [plot summary], generate 5 possible endings: a satisfying resolution, a bittersweet ending, a twist ending, an ambiguous ending, and a sequel hook. For each, one paragraph explaining how it recontextualizes the story."

01 Google Ads Headline Set

Write 15 Google Ads headlines and 4 descriptions for [product/service]. Headlines under 30 characters, descriptions under 90 characters. Match [search intent]. Include keyword '[keyword]' where natural. No exclamation marks.

02 Meta/Facebook Ad Copy

Write a Facebook ad for [product] targeting [audience]. Structure: hook line, 2-3 benefit sentences with specifics, social proof line, and CTA. Primary text: 125 words max. Two headline options + two CTA options to A/B test.

03 Landing Page CTA Variants

Write 10 CTA button text variants for [offer] to [audience]. Mix: direct ('Get Started'), benefit-led ('Get More Leads'), curiosity ('See How It Works'), and low-friction ('Take the 2-Minute Quiz'). Note which psychological trigger each uses.

04 Value Proposition Statement

Write a one-sentence value proposition for [product] using this formula: 'For [target customer] who [need], [product] is a [category] that [key benefit], unlike [competitors] because [differentiator]'. Then rewrite it 3 times in simpler language.

05 Objection-Reversal Ad

Write an ad for [product] that directly addresses the top objection '[objection]'. Structure: acknowledge the objection → reframe it → provide proof → CTA. Keep it honest and specific, with one concrete number or example.

06 Retargeting Ad Set

Write a 3-ad retargeting sequence for visitors who [behavior, e.g., visited pricing but didn't buy]: Ad 1 — reminder + key benefit. Ad 2 — social proof + objection handling. Ad 3 — incentive or deadline. Each: 80-word text + headline + CTA.

07 Ad Headline A/B Duo

For [product], write 4 headline pairs (8 total) for paid ads. Each pair tests one variable: benefit vs feature, urgency vs value, 'you' vs 'we', specificity vs breadth. Explain your predicted winner for each pair.

08 Lead Magnet Ad Copy

"Write an ad promoting my free lead magnet: [magnet description]. Audience: [audience]. The offer is free, so emphasize the immediate value and zero risk. Text: 90 words max, one CTA, no hype. Give 3 headline options."

01 Resume Bullet Point Optimizer

Rewrite these resume bullets with quantified achievements: [paste]. Use the format: Action Verb + Task + Measurable Result (e.g., 'Increased X by Y% by doing Z'). Generate 3 variations per original bullet.

02 Cover Letter Builder

Write a cover letter for a [role] position at [company]. Hook: connect my [specific experience] to their [specific need from job posting]. Body: 2 paragraphs of proof. Close: confident, low-pressure next step. Keep under 300 words.

03 Cold Pitch / Sales Email

Write a cold email to [prospect type] offering [service/product]. Structure: personalized opener (reference [detail]), one-line value proposition with a specific result, proof point, and a low-pressure CTA. Under 110 words.

04 Proposal Summary

Write an executive summary for a [project/consulting] proposal: [details]. Goal: get a 'yes' in under 60 seconds of reading. Include: the problem, the approach, the outcome, the investment, and a clear next step. Max 200 words.

05 Upwork/Freelance Profile

Write an Upwork/freelance profile overview for a [skill] freelancer targeting [client type]. Structure: 1-line hook, what you do, who you help, your process, proof of results, and CTA to message. 200-250 words, professional but approachable.

06 Meeting Follow-Up Email

"Write a follow-up email after a [type of meeting] with [person]. Include: thank-you + one specific takeaway from the call, a recap of agreed next steps, and the specific ask with a date. Tone: [tone]. Under 120 words."

How to use this pack

- ****Match the tool to the task****: Claude for natural long-form, Writesonic for SEO-optimized content, ChatGPT for versatility, Gemini for speed.
- ****Stack prompts in sequence****: Outline → Section 1 → Section 2 → Polish → Metadata. Each step builds on the last.
- ****Iterate after the first output****: the first response gets you 80%. A follow-up like "Make paragraph 3 more specific" gets you to publishable.
- ****Give the AI a voice sample****: paste one of your own paragraphs as a style reference — it outperforms describing tone with adjectives.
- ****Be specific about audience****: "Rewrite for technical project managers who skim on mobile" beats "Rewrite for a blog audience."
